

7.1.2. Environmental Consciousness and Sustainability;

The Institution has facilities for alternate sources of energy and energy conservation measures

Response:

1. **Solar Energy:** the institution has solar energy as its alternative sources of energy. Solar panels have been installed on the rooftop of the college with 30 KWP capacity under the Central Financial Assistance by the Ministry of New and Renewable Energy, Government of India.
2. The college building is fully equipped with **LED bulbs and tubes** along with ceiling bulbs for the efficient usage of electric energy and sustainability.
3. The college aims at inculcating a sense of conservation and sustainability among the students by instructing them to turn off the lights, fans and other electrical appliances in the classrooms when they leave the room. These instructions are also followed by all the teaching and non-teaching faculty members every day in the college.
